

## Instructions

### SPACE AND SIZE NEEDED FOR THE MARKUSNET TYPE MS CONTAINER

We recommend location near gangway gate and wall space of size width 100 cm x height 90 cm.

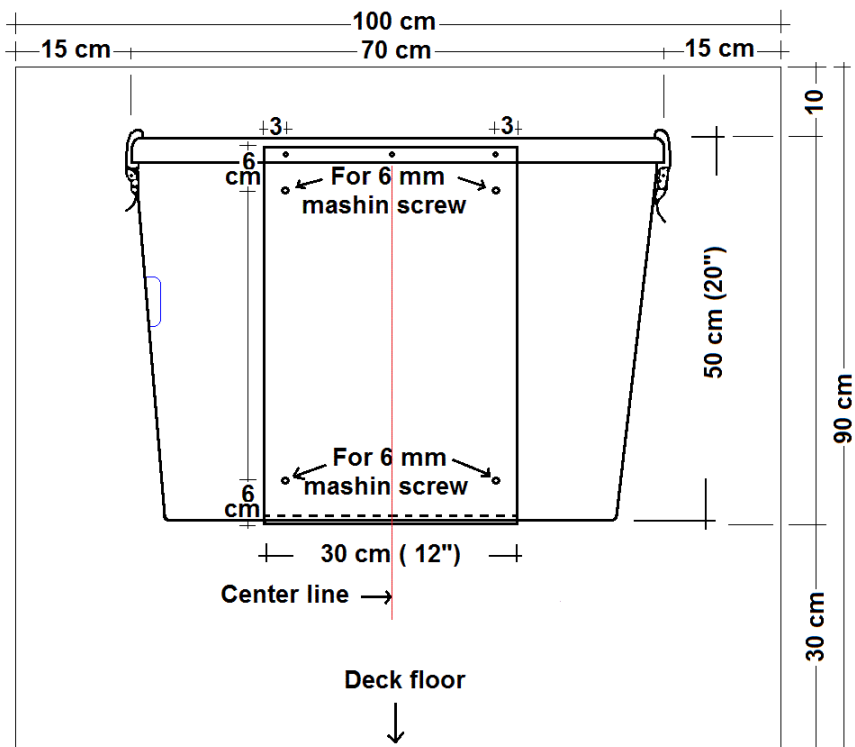

The lower end of the container mounting bracket shall be 30 cm from the deck floor

Space needed for Markusnet type MS in rigid container

Wall space needed for the Markusnet container  
H 90 cm x W 100 cm

Recommended height from deck floor to container mounting bracket 30 cm

#### Marking and drilling for screws.

1. Measure for the Center on the wall space where the container is to be stored.
2. At the centre line measure 30 cm from the deck floor.
3. Measure and mark 15 cm from the center line both ways.
4. Place the lower corners of the mounting bracket at the marks and mark for the machine screws on the wall.
5. A) Fastened into thread hole. Drill for the thread tap with 5 mm drill and thread with 6 mm thread tap.
6. B) Fasten with washer and nut. Drill with 6,5 mm dia drill.
